PATIENT CONSENT AND DECLARATION FORM FOR WEIGHT CONTROL TREATMENT

Initial

1. _____ I hereby give consent to the physician(s) to render treatment for obesity and/or weight control, and said physician(s) has my permission to prescribe weight loss medication and injections of *Human Chorionic Gonadotropin* (hCG).
2. _____ I thoroughly understand Transformations weight control program and the procedures, and am fully aware that no guarantee or assurance has been given to me, as to the results which may be obtained from the weight loss program.
3. _____ I understand the physician(s) has given his/her permission for my participation in the weight control program; based solely on the medical history and background information I have provided, which I deem to be true and accurate.
4. _____ I assume all risk and responsibility and voluntarily release the mentioned physician(s), and his/her staff, from all claims that may be associated with Transformations weight loss program, with the exception of those attributable to negligence.
5. _____ I have been informed and am fully aware that the use of hCG (Human Chorionic Gonadotropin) by injection has the possibility to aggravate fibrocystic disease of the breast. Being fully informed and aware of this possibility, I elect to utilize the 125 units of hCG for my weight loss program.
6. _____ I have been informed and am fully aware that if I have a medical history of **uterine fibroids**, and/or **ovarian cysts** (female); or of **Prostatitis** (male), that the use of hCG (Human Chorionic Gonadotropin) by injection may be contra-indicated in my weight loss treatment.
7. _____ I have been informed and am fully aware, that the use of hCG has the potential to stimulate the production of estrogen (female), which in rare instances, may be inducible to pregnancy and/or multiple births.
8. _____ I have been informed and am fully aware that I can ***not*** be pregnant throughout the course of my medical weight control treatment, and that I should ***continue*** contraceptive practices.
9. _____ I have been informed and am fully aware that this prescription may be filled at any pharmacy or in this practitioner's office.
10. _____ I am fully aware and understand there is lack of scientific data regarding the potential danger of long-term use of combination weight loss treatments, and have been advised of the potential benefits versus the potential risks of such weight loss treatment.
11. _____ I understand my continuing to receive the appetite suppressants will be dependent on my progress in weight reduction.
12. _____ I am fully aware and understand that the need for dietary intervention, and physical exercise, should be a part of any weight loss regimen.
13. _____ I am suicidal.
 YES NO
14. _____ I am on probation or parole at this time.
 YES NO
15. _____ I am on a drug testing program or Methadone program.
 YES NO
16. _____ I will take medications prescribed only as directed.
 YES NO

17. _____ I am not receiving treatment for any condition or prescriptions from any other doctors, except as stated below.

(Doctor's name/address)

(Rx, medications)

18. _____ I have been truthful to Transformations Medical Weight Loss and the physician(s) about my medical and/or emotional problems.

YES

NO

DISCLAIMER

I am not currently being treated with any cardiac medications or serotonergic agents, including but not limited to: Fenfluramine, Dexfenfluramine, Phentermine (appetite suppressants), or over-the-counter weight loss medication, and/or herbal products, or any one of the Selective Serotonin Reuptake Inhibitors (SSRI's), or Monomamine Oxidase Inhibitors (MAOI's) for depression, or any of but not limited to, the medications listed below.

- Prozac
- Zoloft
- Paxil
- Serzone
- Ludiomil
- Sinequan
- Vivactil
- St. John's Wort (herbal)
- **Cardiac Medications:** _____
- Effexor
- Luvox
- Eldepryl
- Nardil
- Adapin
- Surmontil
- Anafranil
- Satiete (herbal)
- Parnate
- Desyrel
- Remeron
- Wellbutrin
- Asendin
- Tofranil
- Zyban
- Celexa
- Elavil
- Etrafon
- Limbitrol
- Norpramin
- Pamelor
- Triavil

Should I fail to inform Transformations or the physician(s), of the use and/or treatment with a Serotonergic agent (SSRI), or Monomamine Oxidase Inhibitor (MAOI), or any cardiac medication(s) while participating in the program, I assume all risks and hold Transformations Medical Weight Loss and the physician(s), harmless from all claims associated with my use of any of, but not limited to, the medication(s) listed above. I have carefully read and fully understand all of the above information and declare it to be true and accurate.

(patient's legal name)

Please check box if patient **currently** has, or in the past five years has had uterine fibroids, ovarian cysts and/or polycystic ovarian disease. (**Female**); or Prostatitis (**Male**).

(patient initial)

*Note: The information contained in this disclaimer form is not intended to cover all drug interactions. This information is generalized and is not intended as specific medical advice. Always consult with your physician before taking any types of medication.

MEDICATION ADVISORY FORM

The staff at Transformations hopes your experience with us will be pleasant as well as rewarding. To ensure your experience with us is pleasant, we want you to be aware there are several side effects and/or reactions to appetite suppressants. There is a possibility you may **not experience any** of these listed, however, the most typical or **more commonly** experienced side effects with using appetite suppressants are:

- dryness of the mouth
- unpleasant taste
- occasional headaches
- diarrhea and/or constipation
- sleeplessness

POSSIBLE SIDE EFFECTS

Appetite Suppressants: The medication may cause restlessness, dizziness, tremors, headaches, and/or depression. When taken as prescribed there are **rarely** any psychotic episodes. In some cases a patient **may** experience blood pressure elevation (our nursing staff will be monitoring this for you), rapid heart beat and/or pounding in the chest. The less common, but possible risks are: primary pulmonary hypertension and valvular heart disease. These and other possible risks could be serious or fatal. **Important: Doctors and Anesthesiologists require different lengths of time off different medications prior to surgery. In order to avoid any possible delay in your surgery, go off all medications from Transformations at least two weeks before your surgical date.**

How To Use This Medicine: Follow the directions for using this medicine provided by your Doctor. This medication may be taken with food. If you are using this medication on a regular basis and happen to miss a dose, take it as soon as possible. If it is almost time for your next dose, “skip” the missed dose and go back to your regular dosing schedule. **DO NOT** take two (2) doses at once. **Cautions:** When taking this medicine **alone** or with **other medicine(s)** and/or **alcohol**, avoid activities that require alertness and/or good Psychomotor coordination as it may affect your ability to drive and/or operate equipment, or perform other potentially dangerous tasks. **BEFORE YOU BEGIN TAKING ANY NEW MEDICINE** either prescription or over-the-counter, check with your Doctor or Pharmacist. If you are pregnant and/or will be nursing an infant **DO NOT** use this medication.

HCG: There may be some side effects to the HCG (Human Chorionic Gonadotropin). Below are several possible side effects to the injections. The more typical or **most commonly experienced** are: tenderness of the breasts, disruption in menstrual cycles (i.e. early onset or delayed - usually one week), and occasionally slight bruising at the injection site. The use of HCG has the potential to stimulate the production of estrogen which, in rare instances, may be inducible to pregnancy and/or multiple births. Other possibilities not generally seen which may occur in **male** patients are: tenderness in the groin, and/or aggravation to the prostate gland (if there is a continued history of prostatitis).

Possible adverse reactions which **may** occur include headache, irritability, restlessness, depression, fatigue, edema, precocious puberty, gynecomastia, and pain at the site of injection. Hypersensitivity reactions both localized and systemic in nature, including erythema, urticaria, rash, angioedema, dyspnea, and shortness of breath, have been reported. The relationship of these allergic-like events to the polypeptide hormone or the diluent containing benzyl alcohol is not clear. **Cautions:** If you are pregnant and/or will be nursing an infant **DO NOT** take this medication.

PLEASE DO NOT WAIT until your next visit to report these or any other side effects you may be experiencing to our nursing staff. Due to a wide variety of choices with selecting both the medication and strength, we can almost always help you become more comfortable.

I have carefully read and fully understand all the above information, and acknowledge the possibility of all risks with using the medications, and/or injections, in this program. I therefore assume all risks, and hold Transformations Medical Weight Loss and the physicians(s), harmless to any, and/or all, reactions or side-effects experienced while taking any, and/or all, of said medications.

METABOLIC ENHANCER DISCLAIMER

I have been informed and am fully aware that I can not take Metabolic Enhancer if I have any of the following conditions.

- High Blood Pressure
- Cardiovascular Disease
- Arrhythmias
- Diabetes
- Prostatic Hypertrophy
- Glaucoma
- Hyperthyroidism
- Psychosis
- Thyroid Disease
- Pregnant or Lactating

I have been informed and am fully aware that:

1. I can not take Metabolic Enhancer on the same day as Metabolic Enhancer Free.
2. I must inform Transformations and the Physician if I am now taking, or begin to take, asthma medications, appetite suppressing drugs, anti-depressants, or cardiovascular medication.
3. Caffeine intake is not recommended while taking the Metabolic Enhancer product.
4. I must be at least 18 years of age to take this product.
5. If allergic symptoms and/or reactions develop, I am to discontinue use.
6. This product contains Phenylalanine.
7. **Do not** take products containing Ephedra or Ma Huang in conjunction with Metabolic Enhancer.
8. **Do not** take Metabolic Enhancer if allergic to aspirin.

I acknowledge that I have carefully read and fully understand all of the above information. I assume sole responsibility and hold Transformations Medical Weight Loss harmless for any, and/or all, reactions or side effects that may be experienced while taking the Metabolic Enhancer product.

METABOLIC ENHANCER FREE DISCLAIMER

I have been informed and am fully aware that I can not take Metabolic Enhancer Free if I am taking any Monoamine Oxidase Inhibitors (MAOI's) for depression or anxiety (for example: Eldepryl, Parnate, Nardil), or if I have any one of the following conditions.

- Hyperthyroidism
- Psychosis
- Parkinson's Disease
- Pregnant or Lactating

I have been informed and am fully aware that:

1. I can not take Metabolic Enhancer Free on the same day as Metabolic Enhancer.
2. I must inform Transformations and the Physician if I have hypertension, heart disease, arrhythmias, prostatic hypertrophy, glaucoma, liver disease, renal disease, or diabetes.
3. I will inform Transformations and the Physician if I am now taking, or begin to take, appetite suppressants or cardiovascular medication.
4. Caffeine intake is not recommended while consuming this product.
5. If allergic symptoms and/or reactions develop, I am to discontinue use.
6. I must be at least 18 years of age to take this product.
7. **Do not** take products containing Ephedra or Ma Huang in conjunction with Metabolic Enhancer Free.

I acknowledge that I have carefully read and fully understand all of the above information. I assume sole responsibility and hold Transformations Medical Weight Loss harmless for any, and/or all, reactions or side effects that may be experienced while taking the Metabolic Enhancer Free product.

B-12 INJECTION DISCLAIMER

I have been informed and am fully aware that I can not take B-12 injections if I have Leber's Disease (disease of the nerve that is responsible for vision).

I have been informed and am fully aware that:

1. B-12 injection side effects and/or reactions may cause itching, rash, bumps, redness of the skin and/or mild discomfort at the injection site.
2. B-12 injection side effects and/or reactions may cause blood clots which can cause leg cramps, difficulty breathing, and/or stroke. If you have a history of blood clots, smoking and/or use oral contraceptives, you can be at an increased risk.
3. I must be at least 18 years of age to take this product.
4. If allergic symptoms and/or reactions develop, I am to discontinue use.
5. People with chronic liver and/or kidney dysfunction should not take frequent B-12 injections.
6. I should seek medical attention immediately if any severe side effects, including, but not limited to, severe allergic reactions (hives, difficulty breathing, tightness of chest, swelling of the mouth, face, lips or tongue), or lower back or side pain occur while using B-12 injections.

I acknowledge that I have carefully read and fully understand all of the above information. I assume sole responsibility and hold Transformations Medical Weight Loss harmless for any, and/or all, reactions or side effects that may be experienced while taking the B-12 injections.

LIPOTROPIC INJECTION DISCLAIMER

I have been informed and am fully aware that I can not take Lipotropic injections if I have Leber's Disease (disease of the nerve that is responsible for vision) and/or a sulfa allergy (an allergic reaction to sulfonamides).

I have been informed and am fully aware that:

1. I must be at least 18 years of age to take this product.
2. Lipotropic injection side effects and/or reactions may cause itching, rash, bumps, redness of the skin and/or mild discomfort at the injection site.
3. Lipotropic injection side effects and/or reactions may cause blood clots which can cause leg cramps, difficulty breathing, and/or stroke. If you have a history of seizures, hypothyroidism, blood clots, smoking and/or use oral contraceptives, you can be at an increased risk.
4. Mild side effects may include upset stomach, bad breath, depression, incontinence, nausea, vomiting and diarrhea.
5. If allergic symptoms and/or reactions develop, I am to discontinue use of Lipotropic injection.
6. People with chronic liver and/or kidney dysfunction should not take frequent Lipotropic injections containing B-12.
7. I should seek medical attention immediately if any severe side effects, including, but not limited to, severe allergic reactions (hives, difficulty breathing, tightness of chest, swelling of the mouth, face, lips or tongue), or lower back or side pain occur while using Lipotropic injections.

I acknowledge that I have carefully read and fully understand all of the above information. I assume sole responsibility and hold Transformations Medical Weight Loss harmless for any, and/or all, reactions or side effects that may be experienced while taking the Lipotropic injections.

PATIENT MEDICATION CONSENT FORM

- 1) I _____ (patient and/or patient's guardian), authorize Transformations Medical Weight Loss, to assist me in my weight reduction efforts. I understand my treatment may involve, but not be limited to the use of appetite suppressants, and when indicated, in different doses than the dose advised in the appetite suppressant labeling.
- 2) I have read and fully understand the following statements:
- Medications, including the appetite suppressants, have labeling arranged between the makers of the medication and the FDA. This labeling contains, among other things, suggestions for using the medication. The appetite suppressant labeling suggestions are generally based on shorter-term studies (up to 12 weeks), using the dosages indicated in the labeling.
 - Transformations Medical Weight Loss and their physicians, have found the appetite suppressants helpful at times in slightly higher doses than those suggested in the labeling. Physicians are not required to use the medication as the labeling suggests. However, they do use the labeling as a source of information, along with the years of Transformations' experience, the experience of their colleagues, recent longer-term studies, and recommendations of university based studies. Based on these findings, they have chosen when indicated, to use the appetite suppressants at times in increased doses.
 - Such increased dosage has not been as systematically studied, as that suggested in the labeling. Therefore, the safety and efficiency of this therapy for weight loss has not been established.
- 3) I fully understand this authorization is given with the knowledge that the use of appetite suppressants in general, as well as in different doses than the dose indicated in the labeling, may involve risk(s) and/or adverse reaction(s). The more common include: nervousness, sleeplessness, headache, dry mouth, weakness, tiredness, psychological problems, medication allergies, high blood pressure, rapid heart beat, and heart irregularities. The less common, but possible risks are: primary pulmonary hypertension and valvular heart disease. These and other possible risks could be serious or fatal.
- 4) I have carefully read and fully understand all the above information, and acknowledge the possibility of all risks using the medications, even at different dosages, in this program. I therefore assume full responsibility, and hold Transformations Medical Weight Loss and their physicians, harmless to any, and/or all, reactions or side-effects experienced while taking any said medications. I realize I should not sign this form if all items have not been fully explained, or if any questions I have concerning this consent have not been answered to my complete satisfaction.
